Lesson Purpose

Use this workbook while completing Lesson 5. Separate common myths about artificial intelligence from reality and build a practical understanding of AI.

Before You Begin

- I completed Lesson 4.
- I understand the basics of AI.
- I am ready to challenge common AI myths.

My Main Goal

What AI misconceptions do I want to understand or correct?

Guided Exercise 1

Write down three AI myths you have heard and explain whether they are true or false.

Guided Exercise 2

Explain why AI is a tool that depends on data, human guidance, and context.

Guided Exercise 3

List three realistic benefits of AI and three limitations of AI.

Practical Activity

Ask an AI assistant about a common AI myth. Compare its answer with a reliable source and summarize what you found.

Prompt Practice

Prompt: "Debunk five common myths about artificial intelligence using simple language."

Key Takeaways

Write the three most important things you learned.

My Practical Action Step

What will you complete before Lesson 6?

Completion Checklist

- I completed every exercise.
- I can identify common AI myths.
- I verified information using reliable sources.
- I am ready for Lesson 6.

Reflection

Which AI myth surprised you the most and why?
