

LESSON 34 WORKBOOK

Building an AI Portfolio

Module 5: Building an AI Career

Name		Date	
Portfolio Project		Status	■ Not Started ■ In Progress ■ Complete

Lesson Purpose

Learn how to create a professional AI portfolio that showcases your skills, projects, achievements, and results to attract employers, freelance clients, and business opportunities.

Before You Begin

- I completed Lesson 33.
- I have identified my AI career direction.
- I am ready to showcase my work professionally.

My Main Goal

Exercise 1

List the AI projects, skills, certifications, and achievements you want to include in your portfolio.

Exercise 2

Create an outline for your portfolio including an introduction, projects, case studies, testimonials, and contact information.

Exercise 3

Describe how each portfolio project demonstrates your skills, problem-solving ability, and measurable results.

Practical Portfolio Activity

Create or update your AI portfolio using your preferred platform. Add at least three projects, explain your role, describe the tools you used, and highlight measurable outcomes.

Prompt Practice

Prompt: "Act as a professional portfolio coach. Review my AI portfolio, recommend improvements, rewrite my project descriptions, and suggest ways to make my work more attractive to employers and clients."

Key Takeaways

My Practical Action Step

Reflection

Completion Checklist

- Completed all workbook exercises.
- Planned or improved my AI portfolio.
- Added projects that demonstrate real skills and results.
- I am ready for Lesson 35.

Next Step

Continue to **Lesson 35 – Finding AI Clients**.
