

LESSON 37 WORKBOOK

Building Multiple AI Income Streams

Module 5: Building an AI Career

Name		Date	
Income Strategy		Status	■ Not Started ■ In Progress ■ Complete

Lesson Purpose

Learn how to diversify your income by combining multiple AI-powered services, products, and business models into a sustainable long-term income strategy.

Before You Begin

- I completed Lesson 36.
- I have at least one AI income idea.
- I want to build more than one source of income over time.

My Main Goal

Exercise 1

List five AI income streams you could realistically build over the next two years.

Exercise 2

Rank your ideas based on startup cost, required skills, earning potential, and long-term sustainability.

Exercise 3

Create a phased roadmap showing which AI income stream you will launch first, second, and third, and explain why.

Practical Income Strategy Activity

Create a one-year AI income strategy combining services, digital products, affiliate marketing, content creation, automation, or consulting. Estimate expected milestones, risks, and growth opportunities.

Prompt Practice

Prompt: "Act as an AI business strategist. Help me build multiple AI income streams, prioritize opportunities, estimate earning potential, identify risks, and create a 12-month growth plan."

Key Takeaways

My Practical Action Step

Reflection

Completion Checklist

- Completed all workbook exercises.
- Planned multiple AI income streams.
- Created a long-term growth roadmap.
- I am ready for Lesson 38.
