

LESSON 39 WORKBOOK

The Future of AI

Module 5: Building an AI Career

Name		Date	
Future AI Plan		Status	■ Not Started ■ In Progress ■ Complete

Lesson Purpose

Explore emerging AI trends, future career opportunities, new business models, ethical considerations, and lifelong learning strategies so you can remain competitive as AI continues to evolve.

Before You Begin

- I completed Lesson 38.
- I understand today's AI landscape.
- I am committed to continuously learning and adapting as AI evolves.

My Main Goal

Exercise 1

Identify five AI trends that you believe will have the greatest impact over the next five years.

Exercise 2

Describe how AI could change your career, business, or industry and explain how you will prepare for those changes.

Exercise 3

Create a personal lifelong learning plan that includes books, courses, communities, certifications, and projects to help you stay current with AI developments.

Practical Future Planning Activity

Develop a three-year AI roadmap for your career or business. Include the skills you want to master, technologies you plan to learn, income goals, networking opportunities, and annual milestones.

Prompt Practice

Prompt: "Act as a future technology strategist. Analyze current AI trends, predict the skills that will be most valuable over the next five years, and create a personalized roadmap to help me remain competitive."

Key Takeaways

My Practical Action Step

Reflection

Completion Checklist

- Completed all workbook exercises.
- Created a long-term AI learning roadmap.
- Identified future opportunities and trends.
- I am ready for Lesson 40.

Next Step
